Eligibility	Student teams, closes Nov 19, 2026
Problem	Careers in Your Community - showing students the real careers that exist where they live

The solve: the career ledger

- **Real jobs pressed to text:** scrape live employer postings in the home region, parse them deterministically into title, skills, wage band, and pathway - no vibes, a record of what is actually hiring.
- **The pathway graph:** each career gets a printed path from the school door to the paycheck, with every step sourced from the postings themselves.
- **Why it wins:** the judges want something students actually use; a tool that only shows jobs that really exist, refreshed weekly, beats a poster every time.
